Worklabs

Reinventing the Worklabs Job Board

Case study | 5 min read

Project type: Full-scale, end-to-end [Product Design](#) and [Branding](#)
Responsibilities: Product design, [UX research](#), [information architecture](#), design, [strategy](#), [visual design](#)
My role: Lead UX / Visual Designer
Launched: April 2020

Overview

Worklabs is a [digital talent platform](#) that connects [Gen Z](#) and [millennials](#) with [paid internships](#) and [entry-level jobs](#). Its mission is to [democratize opportunity](#) by removing barriers to entry and [bridging the gap between education and employment](#).

Worklabs' [job board](#) is the core feature of the platform, where users can search and apply for jobs. Before the redesign, the job board was [functional but outdated](#), with [poor usability](#) and [limited engagement](#). Users struggled to find relevant opportunities, and the platform's [low conversion rates](#) reflected this friction.

The goal was to [transform the job board into a modern, engaging, and intuitive experience](#) that would [increase user engagement](#), [improve job discovery](#), and [drive more applications](#).

Some context

Worklabs is a [digital talent platform](#) that connects [Gen Z](#) and [millennials](#) with [paid internships](#) and [entry-level jobs](#). Its mission is to [democratize opportunity](#) by removing barriers to entry and [bridging the gap between education and employment](#).

The job board is the core feature of the platform, where users can search and apply for jobs. Challenges & Goals

Worklabs' [job board](#) is the core feature of the platform, where users can search and apply for jobs. Before the redesign, the job board was [functional but outdated](#), with [poor usability](#) and [limited engagement](#). Users struggled to find relevant opportunities, and the platform's [low conversion rates](#) reflected this friction.

The goal was to [transform the job board into a modern, engaging, and intuitive experience](#) that would [increase user engagement](#), [improve job discovery](#), and [drive more applications](#).

The user

[Gen Z](#) and [millennials](#) are [digital natives](#) who [expect seamless, mobile-first experiences](#). They're [accustomed to platforms like Instagram and TikTok](#) that [prioritize engagement and ease of use](#).

The user's mindset: [Frustration](#) with [traditional job boards](#) that [feel outdated and impersonal](#).

The platform's challenge: [Overcome skepticism](#) and [build trust](#) with [users who value authenticity and transparency](#).

Design approach

Worklabs' [job board](#) is the core feature of the platform, where users can search and apply for jobs. Before the redesign, the job board was [functional but outdated](#), with [poor usability](#) and [limited engagement](#). Users struggled to find relevant opportunities, and the platform's [low conversion rates](#) reflected this friction.

The goal was to [transform the job board into a modern, engaging, and intuitive experience](#) that would [increase user engagement](#), [improve job discovery](#), and [drive more applications](#).

Design thinking workshop

Worklabs' [job board](#) is the core feature of the platform, where users can search and apply for jobs. Before the redesign, the job board was [functional but outdated](#), with [poor usability](#) and [limited engagement](#). Users struggled to find relevant opportunities, and the platform's [low conversion rates](#) reflected this friction.

The goal was to [transform the job board into a modern, engaging, and intuitive experience](#) that would [increase user engagement](#), [improve job discovery](#), and [drive more applications](#).

Empathy with users

Worklabs' [job board](#) is the core feature of the platform, where users can search and apply for jobs. Before the redesign, the job board was [functional but outdated](#), with [poor usability](#) and [limited engagement](#). Users struggled to find relevant opportunities, and the platform's [low conversion rates](#) reflected this friction.

The goal was to [transform the job board into a modern, engaging, and intuitive experience](#) that would [increase user engagement](#), [improve job discovery](#), and [drive more applications](#).

- **Empathy map:** [Gen Z](#) and [millennials](#) are [digital natives](#) who [expect seamless, mobile-first experiences](#). They're [accustomed to platforms like Instagram and TikTok](#) that [prioritize engagement and ease of use](#).
- **Persona:** [Gen Z](#) and [millennials](#) are [digital natives](#) who [expect seamless, mobile-first experiences](#). They're [accustomed to platforms like Instagram and TikTok](#) that [prioritize engagement and ease of use](#).
- **Journey map:** [Gen Z](#) and [millennials](#) are [digital natives](#) who [expect seamless, mobile-first experiences](#). They're [accustomed to platforms like Instagram and TikTok](#) that [prioritize engagement and ease of use](#).
